💼 EDUCATION

» **Jan 2019-Dec '21**

B.S. in Computer Science, College of Engineering
University of Illinois at Chicago (UIC)
• ***Relevant Coursework***: Logic Computer Systems, Systems Programming, Android Studio, Calculus III, Statistics, Linear Algebra, Software Design, Languages and Automata
• ***Activities***: Chess Tutor, Linux Uservs Group, Association for Computing Machinery

🎓 EXPERIENCE

» **June 2021-Aug 2021**

Software Engineering Intern
Fidelity Investmets, Durham, NC
• Worked in Snowflake (cloud computing databases) more specifically detecting anomalies in Snowpipe when files from an AWS S3 bucket were automatically passed through the pipeline.
• Established a new CI/CD Pipeline with Jenkins for the whole team with regulated environments so deployment process is easier and faster from end to end.

» **Jan 2021-Current**

Teachers Assistant
University of Illinois at Chicago (UIC)
• TA for Software Design - JAVA, a 300-level class
• Assist students during office hours with things such as software design principles, debugging, and practices, etc.

» **May 2016-March '19**

Event Coordinator Intern
R&R Strategists, Chicago, IL
• Worked in high stress event environment where each intern was in charge of volunteers, lead major events, and helped set them up

📊 PROJECT EXPERIENCE

Divvy: Chicago's Bike Sharing ~ Java
• A program to analyze data from Chciago Divvy bikes
• Used Dijkstra's algorithm to find the shortest path to a station based on latitude and longitude

Baccarat Game ~ Java
• A classic casino game with animations and transitions created in JavaFX
• Server and client threading, playable through multiple computers using ip and port address

Basic Unix Shell ~ C
• Shell supported input/output redirection, piping, user input signals, and background status info

⚙ SKILLS

» C | C++ | F# | C#

» Python & Javascript

» HTML/CSS

» SQL

» Java & JUnit

» Groovy

» Shell

» Rust & React.js

★ Proficiency

Snowflake · IntelliJ · Jenkins · Kubernetes · Docker · Android Studio · Visual Studio · Postman · Git · SQL: Workbench

🔤 LANGUAGES

» Urdu (native)

» Arabic
